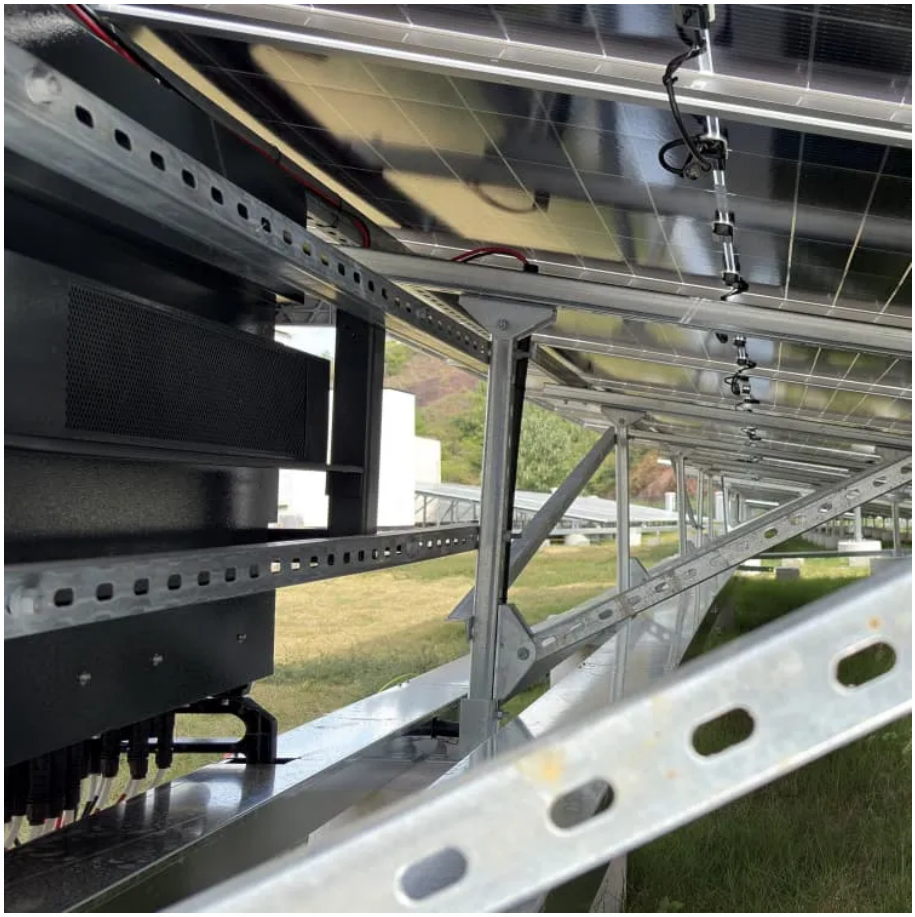
Solar container shipping price



Overview

How are solar panels shipped?

Most solar panels are shipped via 20ft or 40ft containers. Depending on the quantity, you may choose between FCL (Full Container Load) or LCL (Less than Container Load). FCL: If you are importing a large number of solar panels, booking a full container is cost-effective and provides better security for your goods.

What is the shipping cost for this solar panel?

The standard shipping charge for up to 11 solar panels is $250. For every additional 4 panels, the shipping cost is increased by $25. In the event, the product is only available on the East or West coast, a custom quote will be sent to you before the order is processed.

How to ship solar panels from China?

Shipping Methods You have two main shipping options when importing solar panels from China: sea freight and air freight. Each has its advantages, depending on your needs. Sea Freight: Sea freight is the most economical option, particularly for large shipments. It takes longer but significantly reduces costs per unit.

What is shipping container solar lighting?

Shipping container solar lighting will be your best solution. No cords to worry about and no worry about loosing power. The shipping container solar lighting system is very simple and maintenance free. The 12V battery provide power to the LED lights and the solar panel provide power to the battery through the charging controller.
