# 100-foot folding container used in EU subway stations

Overview

Zbox is a patented ISO shipping container based on innovative Z-folding mechanism. It easily folds to bundle a stack of 5 Zbox units and transport them in the space of 1 standard box (5 in 1).How popular is a foldable container?

As previously noted, the foldable container is now used at more than 60 depots and ports and on 15 shipping lines and growing in popularity all the time. "The shipping industry is typically very conservative," said Broekhuis.

Which companies are coming out with foldable containers?

Staxxon is another company that is coming out with foldable containers. This year, the US-based company operating out of New Jersey began trials of their foldable containers collaborating with freight vessels, road transport operators, and railcar companies.
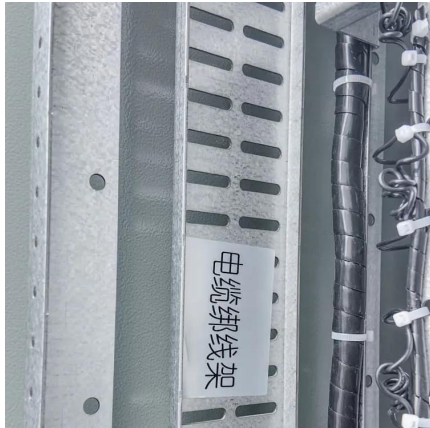

What is a foldable large container (FLC)?

HIGHLIGHTS The ORBIS Europe BulkPak® brand of foldable large containers (FLC) helps global automotive and industrial companies streamline part shipments across global supply chains. For increased transport efficiency, our FLC containers are stackable and collapsible with a return ratio of up to 1 : 3.

What is a foldable container?

Such foldable containers are compatible with the normal ISO-approved TEU or FEU and are strong enough to be placed anywhere on a shipboard stack. Any number of containers from 2 to 5, can be folded and stacked in such a way to form a regular container size for transport or storage.

[What Are Foldable Containers For Shipping Cargo?](#)

Enter The Foldable ContainerHow Does A Foldable Container Work?The Downside of Foldable ContainersWhile the containers from HCI are of the collapsible type, those from Staxxon fold vertically, in the company's words 'accordion style'. To fold an HCI container, an MHE would lift the roof of the container, and then the sides are folded inward. The roof is then lowered gently to rest on the folded sides creating a kind of horizontal flat-pack. Fou See more on marineinsight spectainer
