

# **100 square meter solar panel factory direct sales in New York USA**

## Overview

---

Should you buy solar panels in New York?

Before you buy solar panels in New York, check all the initiatives the state offers. Apart from the Federal Solar Tax Credit program, you can save even more money with local solar incentives in New York.

How much does solar cost in New York?

Interested in going solar?

You'll need to install a 11.35 kW solar panel system to cover the average electric bill in New York, which will cost you about \$23,353 after the federal tax credit. As long as your federal tax bill is high enough, you can take advantage of the federal investment tax credit (ITC).

How many solar panel companies are there in the US?

Thomas has more than 580 solar panel suppliers across the US. As you can see in the infographic below, these solar panel companies are geographically distributed across the country, with a large majority (174) located in California. Florida follows with 45, then New York with 40, Texas with 35, New Jersey with 34, and 32 in Pennsylvania.

Where can I find solar panels in the USA?

Thomas has been North America's number one industrial sourcing platform for more than 125 years. On Thomasnet, you'll find more than 580 suppliers of solar panels in the USA. You can filter these companies by location, certifications, and more factors to easily find and connect with the right supplier for your needs.
