

100W solar panels in Barcelona Spain

Overview

Where can I install solar panels in Spain?

For 8 years, we have been providing solar panels and kits and their installation throughout Spain, including Madrid, Barcelona, Valencia and other provinces. We take care of all the paperwork and approvals required for solar installations. Contact us today for a free calculation or project for your solar system.

Are solar energy solutions a viable option in Spain?

Here's why solar energy solutions are an appealing proposition in Spain: The Abundant Sunlight: Spain is blessed with ample sunshine, averaging over 2,500 sunlight hours each year. Utilizing solar panels under such optimal conditions maximizes energy production, thereby significantly reducing electricity bills.

What incentives are available for solar energy installation in Spain?

Government Incentives: Spanish government's commitment to renewable energy has led to numerous incentives such as a reduction or elimination of energy taxes, subsidies for installation, and grants. These incentives significantly lower the cost of installing a solar energy system.

How much does it cost to install solar panels in Spain?

The cost of installing solar panels varies based on your energy needs and location in Spain. On average, it costs between €6,500 and €10,000 (excluding batteries). Eltex offers an all-in-one solution combining solar panels, energy storage, and smart power management, you can enjoy self-consumption and maximise your energy savings.
