

12V inverter with generator

Overview

What is a 12V power inverter?

Power inverters with more than 90% conversion efficiency and stable performance. The 12V power inverter has the functions of current protection, short circuit protection, over-voltage protection, reverse charging protection, power protection, and core protection.

What is a 12V 220V power inverter?

This inverter 12V 220V generates 1000-watt continuous and 2000-watt surge power which can be applicable for AC household appliances or electrical devices during work trips, road trips, camping, and so on. This power inverter has full safety protections, built-in fuses, and a temperature-controlled cooling fan, to protect your devices from damage.

What is the output voltage of 800W inverter generator?

Low price 800W inverter generator for camping or RV, easy carrier, 58 decibel noise level, make sure you can enjoy the security of power supply in the quiet outdoors. Output voltage can choose AC 110V, 220V, 230V, and 240V, output frequency 50Hz or 60Hz.

What is a 1000 watt 12V power inverter?

1000 watt 12V power inverter for sale, input voltage DC 12V, continuous power 1000W and unload current less than 0.8A. Comes with a USB port, and the 12V to 110V inverters' max efficiency reaches 90%, works at (-10°C, 50°C), and stores at (-30°C, 70°C). Modified sine inverter is compatible with air conditioners, washing machines, ovens, and so on.
