

12v and 5v outdoor power supplies

Overview

What is a 12V, 5A power supply?

This 12V, 5A power supply from 'Power Pax UK' is compact and provides automatic built-in short circuit, over voltage, and over current protection. It's a highly reliable power source and meets CEC Energy Efficiency Level VI. • CE and RoHS Compliant • 100% Brushless.

Can a 12V power supply be used outside?

Regular power supplies with 12V nominal voltage are designed for indoor use, so when used outside in the cold, their voltage drops (at -10°C, the voltage output may reduce to only 10.5 V). This reduction in voltage can cause a mount's motors to behave erratically.
