

# 22kW DC inverter

## Overview

---

What is a 22 kW solar pump inverter?

22 kW solar pump inverter, AC 45A output at 3-phase, adapt maximum power point tracking technology, work at (-10°C, 40°C). Support AC and DC input, high efficiency up to 99%, RS485 communication mode. With an IP20 protection rating, the 30 hp pump inverter can automatically sleep at high water levels to achieve Intelligent operation.

How many volts is a 22kW inverter?

22kW (30 hp) three phase inverter 208V, 440V, 460V, IP20 protection level, RS485 communication mode. Equipped with the electronic display screen, clear numbers, and convenient and timely adjustment of inverter parameters. Rated current 45A at 380V to 480V, 91A at 220V to 240V.

What is a water pump solar inverter?

The water pump solar inverter with a cooling fan has a power factor  $> 0.99$ , and vibration less than  $5.9\text{m/s}^2$ . 22 kW solar water pump inverter, converts DC 450V-750V or AC 380/400/460/480V to AC output. It comes with internal MPPT real-time detection of solar panels' power voltage. IP20 protection and RS485 communication mode.

What is the electronic screen of The 22kW 3 phase inverter?

The electronic screen of the 22kw three phase frequency drive inverter is a key component in the inverter control system, providing users with an intuitive and real-time information display.
