How many uninterruptible power supplies (UPS) suppliers does Thomas have?

Thomas has more than 640 Uninterruptible Power Supplies (UPS) suppliers across the US.

What is an ups & how does it work?

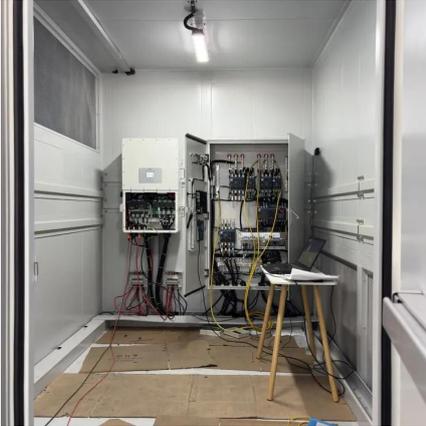

An UPS is a device that supplies power to connected devices for a certain period of time in the event of a power failure due to a power failure. It has a built-in battery and supplies power to servers, PC electronic equipment, network equipment, etc. in the event of power failure or power supply trouble, for example.

What is an uninterruptible power supply (UPS battery backup)?

An Uninterruptible Power Supply (aka a UPS Battery Backup) protects vital connected equipment -- computers, servers, and telecommunications equipment -- from power outages. During an outage, that small UPS Battery Backup under your desk at work gives you enough time to save your spreadsheet and properly shut down your computer.
