

# **24v uninterruptible power supply for mining**

## Overview

---

What is a 24V DC UPS module?

This UPS module for 24 V DC with output currents that range from 5 to 40 A enables the user to create a custom solution which combines a power supply, a UPS module and energy storage. It operates on a nominal input voltage of 24V DC, supporting a range of 18V to 30V DC. Yes, it supports parallel connection with up to two modules for redundancy.

What is the power supply for DIN rail mounting Uta 107/30?

Uninterruptible power supply with IQ Technology and integrated battery for DIN rail mounting, input: 24 V DC, output: 24 V DC/5 A, battery: lead AGM 1.2 Ah, including mounted universal DIN rail adapter UTA 107/30 Free download available. Downloads Prices and availability are not currently available. Please contact us or refresh the page.

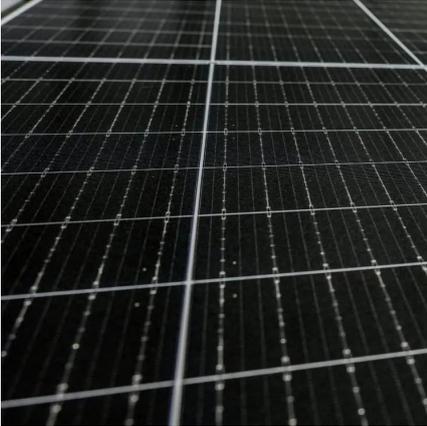

How long does a power supply battery last?

It's just a case of connecting a power supply upstream. This product contains a battery with a limited shelf life that must be charged every few months. The product packaging indicates when the battery must be started up or recharged. The general shelf life can be found in the energy storage devices area under "Latest startup".
