

350kW Photovoltaic Energy Storage Container for Water Plants

Overview

What is ingecon Sun Storage 350tl?

Awesome power density, with up to 350 kW. It features an innovative control unit that performs a more efficient and sophisticated inverter control. The INGECON® SUN STORAGE 350TL can be parallelized in order to adjust the PCS power to different battery configurations. This way, it facilitates the design of a wide diversity energy storage systems.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What is Sunway ESS battery energy storage system (BESS)?

Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

What is a containerised energy storage system (BESS)?

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes. For installation manual, technical datasheet, inverter adjustment/testing or configuration, please send us inquiry.
