

80kWh mobile energy storage container from India for the catering industry

Overview

What is energy storage container?

Energy Storage Container is an energy storage battery system, which includes a monitoring system, battery management unit, particular fire protection system, special air conditioner, energy storage converter, and isolation transformer developed for the needs of the mobile energy storage market.

What is a containerized battery energy storage system?

Our's Containerized Battery Energy Storage Systems (BESS) offer a streamlined, modular approach to energy storage. Packaged in ISO-certified containers, our Containerized BESS are quickly deployable, reducing installation time and minimizing disruption.

Are Bess containers made in India?

BESS Containers by APPL Container are proudly Made in India under the Make in India initiative. These modular, pre-engineered containers are ideal for managing and storing electrical energy efficiently. Designed for seamless deployment across solar, wind, and backup energy systems, they ensure grid reliability and emergency readiness.

Will India's first battery energy storage system be regulated in 2024?

New Delhi | 08 May 2024 — In a significant step forward for India's energy transition, the Delhi Electricity Regulatory Commission (DERC) has granted regulatory approval of India's first commercial standalone Battery Energy Storage System (BESS) project.
