

ASEAN containerized energy storage tank capacity

Overview

Does ASEAN need energy storage?

Determinedly, the region has set the targets of 23 per cent renewable energy share in Total Primary Energy Supply (TPES), and 35 per cent share of renewable energy in ASEAN installed power capacity by 2025. This means that energy storage is required. What Is The Status Quo?

.

Does ASEAN have a policy for promoting battery energy storage?

According to the ASEAN Centre for Energy (ACE) Policy Brief: Enabling Policies for Promoting Battery Energy Storage in ASEAN, only a few AMS have related policies. For instance, Thailand's Ministry of Energy presented its 'Energy 4.0' strategy by integrating disruptive energy technologies such as energy storage systems.

How much energy does the transport sector consume in ASEAN?

In 2017, the transport sector was responsible for 26% of total final energy consumption (TFEC) in ASEAN, and 80% of gasoline and diesel consumption. It was also responsible for 23% of the region's GHG emissions that year. All this has made reducing oil consumption in the sector a priority for the ASEAN Member States.

Does ASEAN have a high energy demand?

2.2 Modelling Results: Baseline Scenario ASEAN has shown rapid growth in energy demand across all Member States and end-use sectors, particularly since 2005, reaching 375 million tonnes of oil equivalent (Mtoe) in 2017.⁹ This trend is expected to continue until 2040, in conjunction with growth in the region's GDP and population.
