

# **Algiers 5g solar container communication station power supply**

## Overview

---

What is 5G power & IEnergy?

Fully meet the requirements of rapid 5G deployment, smooth evolution, efficient energy saving, and intelligent O&M. Including: 5G power, hybrid power and iEnergy network energy management solution. 5G power: 5G power one-cabinet site and All-Pad site simplify base station infrastructure construction.

Could a 5G power outage be a disaster?

Telecom infrastructures are connecting our society, but power outages could be a disaster because even the smallest fluctuation in power could result in communication blackouts or network failures. Investing in a telecom battery backup system is always one of the priorities for telecommunication operators in the 5G era.

What is a 5G solar power platform?

Hybrid power: On the basis of 5G power platform, solar power is smoothly introduced. In areas with good grid, the solutions upgrade smoothly among grid, solar hybrid and pure solar power to achieve low-carbon and zero-carbon.

Which power supply mode is used for micro base station?

For the micro base station, all-Pad power supply mode is used, featuring full high efficiency, full self-cooling and smooth upgrade for rapid deployment and site construction & operation costs reduction.

## Algiers 5g solar container communication station power supply
