

# **Are there many 5G base station communications in Oceania**

## Overview

---

How many 5G subscriptions are there in South East Asia & Oceania?

Although each country in the South East Asia and Oceania region is at a different stage of their 5G journey, 5G is growing strongly, with the regional number of 5G subscriptions expected to reach close to 30 million in 2022. 5G is forecast to have around 620 million 5G subscriptions in South East Asia and Oceania by the end of 2028.

Will Asia Pacific become a 5G market by 2025?

As predicted by GSMA Intelligence, the recent second wave of 5G rollouts in the region in countries such as Indonesia, India, and Malaysia will see Asia Pacific becoming one of the largest 5G markets in the world by 2025. In our recent spectrum analysis, we discussed how important spectrum is for the performance and coverage of 5G.

How big is the 5G base station market?

Macro cells represented USD 22.9 billion and 61.3% of the 2024 5G base station market share, providing umbrella coverage and mobility anchor services. Yet small cells are forecast to expand at a 29.4% CAGR, pushing their slice of the 5G base station market size toward USD 50 billion by 2030.

Which countries have a 5G network?

Many of the more advanced markets in the Asia Pacific have been the frontrunners in terms of 5G rollout. South Korea was the first market in the world to deploy a nationwide 5G network in April 2019, followed by Australia, the Philippines, China, and New Zealand later that year.
