

# Australia PV combiner box wholesaler

## Overview

---

What are the different types of PV combiner box?

VRM offers different types of Solar PV Combiner Boxes based on customer requirement. They deal in Array Junction Boxes, string Combiner Boxes, and string Combiner Boxes. The Solar PV Combiner Box is customized based on the input leads from the Solar PV Module and the output lead either to an inverter or a Main Junction Box (MJB).

What is a DC combiner box?

Our DC combiner boxes offer users the possibility to integrate short-circuit and overvoltage protection, as well string monitoring solutions (I,V, T and SPD and switch isolator status), for PV systems using central inverters with PV panels in trackers and fix tilt systems.

What is a string combiner box?

String combiner box provides functions of combining circuit and surge protection between PV modules and inverters. With optional monitoring module, it could upload and monitor the status of current, voltage, switch and SPD. Electrical data is displayed by LED and transferred by the means of RS485.

How are PV DC combiner boxes tested?

PV DC combiner boxes are tested according to IEC-61439-2 and are constructed on the basis of the test results as well as assembled for the specific application. This ensures that each of the requirements of the target application is fully met. Do you have any questions?
