

# Automatic Folding Container for Airports in Africa

## Overview

---

Can air cargo containers be folded and stacked when empty?

To create certified air cargo containers that can be folded and stacked when empty. Now you don't need to leave your ULDs halfway around the world because a return flight is too expensive. And you can take one step closer to zero-carbon flying. World's first inflatable solution for Unit Load Devices is still in development.

What is a foldable container?

The foldable design saves space and reduces transport costs. Strong, secure, and easy to install, it suits various temporary uses. A modular, collapsible structure designed for easy assembly and disassembly. The container is stackable & Easily transportable. The design expands space for comfort and versatility.

Why should airports use automated container unloaders?

With minimal operator intervention required, the Automated Container Unloader enhances operational efficiency and reduces labor costs. By automating the unloading process, airports can streamline their operations and allocate resources more effectively, ultimately improving overall productivity and performance.

What is a collapsible shipping container?
