

# **BESS benefits of Lisbon energy storage power station**

## Overview

---

Does Portugal support battery energy storage projects?

Portugal has awarded grant support to around 500MW of battery energy storage system (BESS) projects, using EU Recovery and Resilience Plan (RRP) funding, a bloc-wide scheme that has supported energy storage across the continent.

Does greenvolt have a Bess project in Portugal?

Greenvolt and Galp have both deployed 5MW BESS projects in Portugal in the past. In eastern Europe, Moldova is in the process of completing a bidding process for the procurement of a 75MW BESS and 22MW internal combustion engine (ICE) project, called the Moldova Energy Security Project (MESA).

Which companies are investing in Portugal's power infrastructure?

Several companies are investing in the country's power infrastructure, including Powin, an Oregon-headquartered energy storage platform provider that has partnered with Galp, a leading Portuguese integrated energy group, to install battery energy storage systems (BESSs).

What is Bess & how does it work?

BESS, when combined with advanced control systems, can optimize the operation of the grid, allow more renewable-generated energy to be utilized, leading to improved efficiency of green assets and reduced total costs of electricity production.

## BESS benefits of Lisbon energy storage power station
