

# **Battery cabinet supports installation of base station**

## Overview

---

The battery cabinet for base station is a special cabinet to provide uninterrupted power supply for communication base stations and related equipment, which can be placed with various types of lead-acid batteries or lithium iron phosphate batteries to provide power supply for base stations and related equipment to ensure continuous operation of base stations without interruption of services under extreme conditions, help customers to improve the comprehensive service capability of upgrading communication system platforms and meet customer needs.
