

# Battery constant temperature battery cabinet automatic

## Overview

---

What is a constant temperature battery cabinet?

Introduction: Constant-temperature Battery Cabinet is a good cabinet used for outdoor battery, with the wind, rain, sun, corrosion resistance and good anti-theft function, good environment adaptability, can maximum limit reduces the required power for the environment. Keeping the battery temperature below 25°C is important to the battery life.

What are the features of a battery cabinet?

The cabinet is outdoor-rated with automatic, temperature-controlled cooling fans (120VAC) to keep batteries operating at optimal temperature. The cabinet ships pre-assembled for simple plug & play installation.

What temperature should a battery be kept at?

Keeping the battery temperature below 25°C is important to the battery life. Uniformity of the batteries' temperature is a priority. Cooling must be adjusted based on different scenarios.

What kind of batteries can be stored in a rack mount cabinet?

All-in-one design, store the leading brands of 19" rack mount type lithium batteries, inverters and controllers. DC48V powered air conditioner, heat exchanger or TEC coolers are optional, which can cool down the devices installed inside the cabinet. Battery Storage Space based on the battery specification.
