

# **Battery solar container energy storage system equipment cabinet for solar container communication station**

## Overview

---

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO<sub>4</sub>) combined with an intelligent 3-level battery management system (BMS);.

What is a battery energy storage system (BESS)?

BESS (Battery Energy Storage System) is an advanced energy storage solution that utilizes rechargeable batteries to store and release electricity as needed. It plays a crucial role in stabilizing power grids, supporting renewable energy sources like solar and wind, and providing backup power during outages.
