

Beijing communication operators base station sharing

Overview

How many base stations are there in Beijing?

The ultra-large commercial 5.5G 3CC network consists of more than 4,000 base stations and covers well-known landmarks in Beijing, such as Wukesong, Capital Indoor Stadium, Workers' Stadium, Beijing Railway Station, Guijie Street, Panjiayuan, and Beijing University of Technology.

Will China Unicom Beijing become a 'dual 10 Gbps' city?

China Unicom Beijing is striving to do its part, with a large-scale 5.5G network demonstration at the beginning of 2024 followed by the ultra-large-scale commercial 5.5G network deployment of recent months, in helping Beijing become a "dual 10 Gbps" city that sets the bar for network construction, device development, and industry enablement.

What is Beijing's role in promoting 5G-a technology evolution & application innovation?

In the Beijing Action Plan for Promoting 5G-A Technology Evolution and Application Innovation (2024-2026), Beijing Municipal Communications Administration hammered home the importance of Beijing's role in pioneering 5.5G development.
