

Bifacial double-glass component application

Overview

What is bifacial glass technology?

Bifacial glass technology is the preferred material among manufacturers for the rear side cover of the modules. Some key advantages of the glass-glass structure are: Glass-glass modules can also be frameless, which helps eliminate the cost of an extruded aluminum frame. However, glass-glass models with frames have a lower risk of breakage.

What are the benefits of glass-glass configuration bifacial modules?

Our analysis identified the following benefits for glass-glass configuration bifacial modules: The polymer backsheets that traditional modules use is made from plastic with poor resistance to acid and corrosion. Prolonged exposure to air may bring about yellowing, cracking, degradation and chalking, etc.

Do bifacial modules come with frames?

As a result, most glass-glass modules come with frames in place. Compared with standard glass backsheet technology, framed modules with two layers of glass are heavier. Therefore, transparent backsheets are a solution for a lighter bifacial module. A more lightweight module means less cost on transportation, labor, and trackers whenever applicable.

Why should you choose a bifacial module?

Our industry-leading module power contributes to a conversion efficiency of 22.7%. Bifacial ratio reaches 80%, 30% more power generation than conventional modules. Two-sided double-glazed modules, symmetrical structural design, low risk of hidden cracks. Higher power output even under low irradiance environments like on cloudy or foggy days

Bifacial double-glass component application

[How does the double-glass construction of bifacial panels ...](#)

Dec 18, 2024 · The double-glass construction of bifacial solar panels significantly enhances their durability through several key factors: Resistance to Mechanical Loads: Double-glass panels ...

[Double-wave bifacial solar modules: Technological Evolution ...](#)

Jul 25, 2025 · The photovoltaic industry is undergoing an efficiency and reliability revolution led by double-wave bifacial solar modules (commonly known as bifacial double-glass modules). This ...

[High performance double-glass bifacial PV modules ...](#)

Oct 5, 2016 · High performance double-glass bifacial PV modules through detailed characterization Yong Sheng Khoo, Jai Prakash Singh, Min Hsian Saw Solar Energy ...

[Bifacial Double Glass Module](#)

Bifacial Double Glass Module D-Max DAS-DH156NA The D-Max has bright applications, hammering at the creation of ultimate cost-effective products Download Datasheets Product ...

[SoleFiori HJT bifacial double glass module](#)

SoleFiori HJT bifacial double glass module 132 version-heterojunction 210mm cell
Power:695~740W Efficiency:23.18% Bifaciality rate: up to 95% Low attenuation: 1% ...

[JA Solar PV Bifacial Double-glass Modules Installation ...](#)

Nov 20, 2024 · have a fire resistant covering suitable for this application. Rooftop PV systems should only be installed on rooftops capable of handling the additional weighted load of PV ...

[Dual-glass vs glass-backsheet: The winning formula for bifacial ...](#)

Oct 19, 2022 · Our analysis identified the following benefits for glass-glass configuration bifacial modules: Resistance to salt spray, acids and alkalis The polymer backsheet that traditional ...

[Bifacial Double-glass TOPCon PV Modules](#)

CSG's bifacial double-glass TOPCon solar modules deliver high power output, excellent durability, and long-term reliability. Featuring 132, 144, or 156 high-performance monocrystalline cells ...

[BIFACIAL SERIES - GLASS-TO-GLASS PHOTOVOLTAIC ...](#)

Dec 4, 2012 · ECONOMICS Bifacial G2G technology is a turning point in photovoltaic (PV) system technology. It replaces costly single-axis and double-axis mechanical tracking systems with ...

[Dual-glass vs glass-backsheet: The winning ...](#)

Oct 19, 2022 · Our analysis identified the following benefits for glass-glass configuration bifacial modules: Resistance to salt spray, acids and alkalis ...

[Bi-facial Double Glass](#)

Feb 22, 2023 · Our innovations are designed and engineered in Singapore. Among our product portfolio is the High-Power Density low-glare module (GMD series), 3-in-1 Building-Integrated ...
