

Bogota solar Module Project

Overview

With an installed capacity of 19.9 MW and equipped with LONGi's Hi-MO 7 photovoltaic modules, the project represents a major step forward in the adoption of next-generation technologies for cleaner and more efficient electricity generation. Who owns the first solar project in Colombia?

BOGOTA, Feb. 22, 2024 –Atlas Renewable Energy, a leading international provider of renewable energy solutions for large consumers, has acquired its first solar project in Colombia, the Shangri-La project, located in the Department of Tolima.

What is the Shangri-La solar project?

February 22, 2024 Press Releases The Shangri-La solar project, initially developed by Rayo Energia and Black Orchid Solar, will be Atlas Renewable Energy's first solar project in Colombia, with an installed capacity of 201 MWp contributing to its goal of reaching 1 GW of contracted projects in the Andean country.

Why is Rayo partnering with Colombia?

Moreover, it strengthens Rayo's commitment to Colombia and positions us for our next stage of business development, focusing on providing energy services for Colombian industrial clients," said Andres Salas, CEO and founder of Rayo.
