## Overview

---

Does Tesla have a grid-side energy storage project in China?

US electric car maker Tesla signed an agreement on Friday for its first grid-side energy storage project in the Chinese mainland, according to a statement the company sent to the Global Times on Friday.

Is there a large-scale electricity storage system in India?

There is not currently any large-scale electricity storage system installed in the country, and although the hydropower dam reservoirs store large amounts of energy, it can only be used for long-term purposes because its short-term operation is constrained because of the system configuration.

How will Tesla's Energy Storage megafactory benefit Shanghai?

"It will enhance grid flexibility and help integrate renewable energy in the Lingang New Area, supporting Shanghai's seasonal power demands and regional energy security," Dong said. Construction of Tesla's energy storage Megafactory started in May 2024.

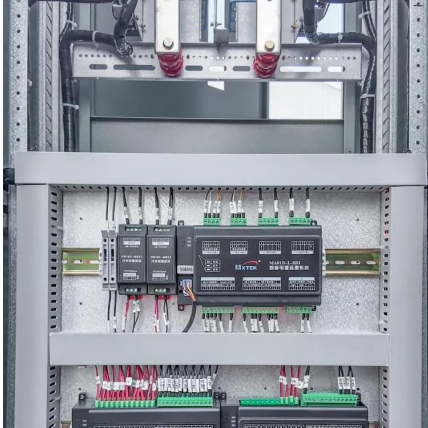

What is the energy storage potential?

The energy storage potential is specific to each country and it mainly depends on the availability of the resources, regulations, transmission infrastructure and energy consumption patterns.
