

# Camping power station factory in Jordan

## Overview

---

Can Jordan build a hydroelectric power station?

Jordan has no notable bodies of flowing water suitable for the construction of hydroelectric power stations. The only such plant is at the King Talal dam on the Az Zarqa River, with a capacity of 5 MW.

How many power plants are in Jordan?

Jordan has 33 utility-scale power plants in operation, with a total capacity of 4703.5 MW. This data is a derivative set of data gathered by source mentioned below. Data and information about power plants in Jordan plotted on an interactive map.

What is a portable power station?

It typically use lithium-ion batteries to store energy and convert it to AC or DC power that can be used to charge electronic devices, power appliances, or even run power tools. They are compact and lightweight, making them easy to transport and set up. One of the biggest advantages of portable power stations is their versatility.

How do I choose a portable power station?

When choosing a portable power station, there are several factors to consider, including the capacity of the battery, the number and type of outlets available, and the overall size and weight of the unit. Some models also come with additional features like built-in inverters, USB ports, and LED lights.
