

Can I buy a mini base station

Overview

Are small cell base stations a good idea?

Small cell base stations are more useful than ever with the ubiquity of smartphones, rising data usage, and the advent of 5G. However, small cell base station designs must meet these demands as well as weight and volume restrictions, without sacrificing performance or significantly increasing power consumption.

Do I need a base station?

Yes, you do need a pair of base stations to get positional tracking of the headset, even if your just seated in front of your desk. Originally posted by SCSI-Terminator: Yes, you do need a pair of base stations to get positional tracking of the headset, even if your just seated in front of your desk.

Does CableFree offer a 5Ghz base station?

CableFree offers Band 46 5GHz LTE Base Station and Outdoor CPE devices for operation in Unlicensed 5GHz spectrum, enabling smaller operators and private customers to build LTE without requiring access to licensed spectrum. Band 46 covers 5150 - 5925MHz and uses TDD-LTE technology. Contact CableFree for details.
