

Chile Energy Storage Industrial Park

Overview

How many energy storage projects are in Chile?

According to a December 2023 publication on the InvestChile website, the country had 23 approved energy storage projects with a total of 3,000 MW of capacity. Chile is exploring a variety of solutions to keep abreast of the changing energy demand landscape ranging from BESS to innovative projects using CO₂.

Will Chile be able to develop energy storage projects in 2024?

In 2022, Chile passed an energy storage and electromobility bill, which made stand-alone storage projects profitable, but the market is still expecting new rules on capacity payment for storage projects, which are to be approved in 2024. Chile has also put in place an auction procedure to award public land for the development of BESS projects.

What is CIP's first energy storage project in Chile?

"The project has issued the final notification for its execution and will be one of the first projects of this type to reach commercial operations in Chile," the company said in a statement. The 220 MW/1.1 GWh site is CIP's first energy storage project in Chile.

Where are Chile's battery energy storage facilities located?

Chile's first battery energy storage projects were commissioned in 2009, and all but two of its 16 administrative regions have facilities in operation, under construction or in the planning stage. The greatest installed capacity is found in the northern regions of Antofagasta and Tarapacá, the country's solar powerhouses.

Chile Energy Storage Industrial Park

[CIP begins construction of energy storage ...](#)

Oct 7, 2024 · This is CIP's first energy storage project in Chile, but it is part of the company's broader strategy to invest in renewable energy across ...

[Chile makes progress on energy storage with 20+ approved ...](#)

5 days ago · With 23 energy storage projects already approved, totaling an impressive 3,000 MW of capacity, Chile is at the forefront of innovation and efficiency in Latin America.

[Top five energy storage projects in Chile](#)

Sep 10, 2024 · Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. Chile had 91MW of capacity in ...

[CIP building 1.1 GWh standalone battery storage project in Chile](#)

Oct 9, 2024 · Copenhagen Infrastructure Partners (CIP) has approved a final investment decision and started construction of the Arena battery energy storage system (BESS) project, with the ...

[Chile Focuses on Solar and Storage as Generation Capacity ...](#)

Jul 1, 2025 · Chile is rapidly moving to build more power generation capacity, with much of that effort focused on renewable energy resources and battery energy storage systems (BESS). ...

[Chile Focuses on Solar and Storage as ...](#)

Jul 1, 2025 · Chile is rapidly moving to build more power generation capacity, with much of that effort focused on renewable energy resources and ...

[Solar and Storage Solutions: Zelestra's Vision for Chile's Grid](#)

Mar 19, 2025 · Discover how solar and storage projects by Zelestra are shaping Chile's grid, enhancing reliability, and driving Chile's energy transition.

[Chile makes progress on energy storage with ...](#)

5 days ago · With 23 energy storage projects already approved, totaling an impressive 3,000 MW of capacity, Chile is at the forefront of innovation ...

[Energy storage is a challenge and an opportunity for Chile](#)

Aug 15, 2024 · The sharp growth in renewable energy production, and the pursuit of ambitious global targets on new capacity, bring with them a significant challenge, alongside huge ...

[The Definitive 2026 Guide: Chile's Energy Storage Policies ...](#)

2 days ago · Driven by the dual engines of ambitious decarbonization mandates and the existential needs of its world-leading mining industry, Chile's energy storage capacity is poised ...

[Chile Energy Storage Industry Holds Promise, EMIS](#)

Jun 5, 2024 · The project is Atlas Renewable Energy's first foray into battery storage technology, which the company sees as essential for increasing the share of renewable energy sources in ...

[CIP building 1.1 GWh standalone battery ...](#)

Oct 9, 2024 · Copenhagen Infrastructure Partners (CIP) has approved a final investment decision and started construction of the Arena battery energy ...

[Solar and Storage Solutions: Zelestra's Vision ...](#)

Mar 19, 2025 · Discover how solar and storage projects by Zelestra are shaping Chile's grid, enhancing reliability, and driving Chile's energy ...

[Tesla Showcases AI-Powered 225 MW Megapack Project in Chile ...](#)

4 days ago · In the rapidly evolving landscape of artificial intelligence, the integration of advanced energy storage solutions is becoming crucial for supporting the immense computational ...

[Energy storage is a challenge and an ...](#)

Aug 15, 2024 · The sharp growth in renewable energy production, and the pursuit of ambitious global targets on new capacity, bring with them a ...

[CIP begins construction of energy storage project in Chile](#)

Oct 7, 2024 · This is CIP's first energy storage project in Chile, but it is part of the company's broader strategy to invest in renewable energy across Latin America. Through its Growth ...
