

Construction of Brasilia Energy Storage Project

Overview

Brazilian electricity company Matrix Energia has completed Brazil's first green debentures issuance worth \$100m Brazilian reais (\$17.9m) to build 224 megawatt-hours (MWh) of battery energy storage capacity by 2025. Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Will Brazil's energy auction improve power grid reliability?

Interest in the auction has been expressed by power companies such as Portugal's EDP and Brazil's ISA Energia. The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar. US Tariffs are shifting - will you react or anticipate?

.

Will Brazil's first electricity auction drive \$450m investment?

Brazil is set to conduct its first auction for adding batteries and storage systems to the national power grid, as reported by Reuters. The auction, to take place in June 2025, will include 300MW energy capacity purchase that could drive an estimated \$450m in investments from winning bidders, according to consultants Oliver Wyman.

Where are solar panels located in Rio de Janeiro?

Photo 1: Solar panels in Maracanã Stadium, in Rio de Janeiro. Photo 2: Wind power plant in the State of Ceará. The project offers technical expertise on energy planning and systems management, regulation, development of new business models and dissemination of innovative renewable energy and energy efficiency technologies.
