Are new shipping containers more expensive than used?

New containers are typically more expensive as they are in perfect condition and ready for long-term use. Used containers are less costly but have some wear and tear. Shipping container sizes and prices are directly linked to each other. The price also depends on how well the container has been maintained over time.

Why should you choose a modular energy storage container?

Advanced monitoring systems and IoT integration ensure optimal performance and remote management capabilities. The modular design allows for easy expansion, with the option to expand the battery storage system by 100 - 500kwh, making our energy storage container perfect for meeting growing energy demands.

How much do shipping containers cost?

There are several options available: Cargo-worthy 20ft dry containers. Prices range from \$500 to \$3,000. Cargo-worthy 40ft dry containers. Expect to pay between \$1,000 and \$3,500. 40ft high cube (HC) cargo-worthy containers. Shell out between \$1,500 and \$4,000. The condition of the container greatly influences how much shipping containers cost.
