

# **Cost of using a 100kW collapsible container on an Australian island**

## Overview

---

How much does a 100kW Solar System cost in Australia?

A high-quality 100kW solar system in Australia typically starts from around A\$39,999, making it a cost-effective choice for medium to large businesses, schools, warehouses, shopping centres, or community facilities. Installation usually costs between A\$1,000 and A\$3,000, depending on your roof type, system complexity, and location.

How much does a 100kW Solar System cost?

As per the table, the average cost of a 100kW solar power system as of August 2024 is \$87,920 including GST and the STC upfront rebate. The graph below – from our Commercial Solar PV Price Index – shows average price trends for 100kW solar systems since Solar Choice started keeping track in May 2014.

Where can I install a 100kW Solar System in South Australia?

South Australia is renowned for its abundant sunshine, making it an ideal location for a 100kW solar system installation. The state offers various incentives to businesses willing to go solar, providing a favorable environment for such investments. Adelaide, the capital city of South Australia, is another hotspot for solar installations.

Is a 100kW Solar System a good investment in Melbourne?

Although Melbourne is known for its unpredictable weather, a 100kW system can still be a good investment, given the state and federal incentives for renewable energy. How to Install a Commercial 100kW Solar System in Australia?
