

# **Croatia s Northern Gulf Port exports energy storage**

## Overview

---

Can Croatia become a gateway for energy and trade in Europe?

By Clare Nuttall in Glasgow Croatia has ambitions to become a gateway for energy and trade in Europe, using its position on the Adriatic to link global markets with Central Europe.

Can Croatia supply gas to neighbouring countries?

The upcoming upgrades will enable Croatia to supply gas to neighbouring countries, including Hungary, Slovenia, Austria, Germany's Bavaria and potentially Bosnia & Herzegovina. 'This terminal makes Croatia, when it comes to gas, an energy regional hub,' Plenković in June 2024, announcing the terminal's expansion.

Is Croatia a gas hub?

'This terminal makes Croatia, when it comes to gas, an energy regional hub,' Plenković in June 2024, announcing the terminal's expansion. Officials in Zagreb highlighted the importance of Krk in January when Russian gas exports via Ukraine were halted, leaving many countries scrambling for alternatives.

Is Croatia energy-independent?

Croatia also co-owns the Krško nuclear reactor in Slovenia, which is included in its energy mix as imported electricity. To become energy-independent and sustainable, Croatia counts on its abundant renewable energy resources. In March 2025, the Croatian government updated its Energy Strategy for the period until 2030, with an outlook through 2050.
