

# **Customized energy storage power supply for households in Argentina**

## Overview

---

Can battery energy storage modernize the grid in Argentina?

The. Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico) confirming the submission of 27 project proposals from 15 companies under its AlmaGBA program.

What is Argentina's energy supply?

Solar, wind, geothermal and biomass account for 5% of Argentina's energy supply – the G20 average is 6.4%. The share in total primary energy supply has increased by around 14.7% in the last five years in Argentina (2014-2019). Bioenergy (for electricity and heat) makes up the largest share (4.7%). Current year (2019): supply.

How many MW of battery energy storage will be deployed in Buenos Aires?

The initiative aims to deploy 500 MW of battery energy storage systems (BESS) in the Greater Buenos Aires Area (GBA), but the submitted capacity has far exceeded expectations—reaching a combined 1,347 MW.

Will Argentina integrate new electricity storage infrastructure into urban distribution networks?

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban distribution networks.
