

# Czech solar power station generator

## Overview

---

How will the Czech government support new generating stations?

The support of new generating stations will also depend upon compliance with the Czech national action plan. 3.4.2 The Czech Promoted Energy Sources Act provides, inter alia, that subsidies paid to generating station operators will be predominantly in the form of green bonuses, and the repayment period for investments is 15 years.

What is the largest CEZ Group photovoltaic power plant?

The largest CEZ Group photovoltaic power plant is Ralsko with an installed capacity of 55.7 MW. The group of photovoltaic installations known collectively as FVE Ralsko and located kilometers apart from each other is located in the territory of the former military area, which would hardly find an alternative use.

Where are photovoltaic power plants built?

Since 2007, we have built photovoltaic power plants for ourselves and our customers in the Czech Republic and abroad (United Kingdom, Romania, Turkey, Hungary, Russia, Kazakhstan and Ukraine) with a combined capacity of 428 MWp.

How much does a solar plant cost in China?

A total cost of almost CZK 2.7 billion was invested for the project completion (around 140 million USD). It is the biggest solar station in the country and by 2012 ranked among the world's top 50 PV plants. The plant is comprised of 5 sections, each with a capacity of 12.869, 14.269, 4.517, and 6.614 megawatts with a total capacity of 38.3 MW.
