

# **Dublin solar container outdoor power BESS**

## Overview

---

Is ACEL energy launching a Bess project in Ireland?

ACEL Energy announce major BESS project in Ireland. ACEL Energy are thrilled to announce the launch of one of Ireland's largest C&I Battery Energy Storage Solutions (BESS), seamlessly integrated with on-site solar PV that enables businesses to generate energy on-site, store the energy and use it in times of high demands or peak rates.

Are battery energy storage systems a 'great achievement' in Ireland?

ESB Networks described the project as a “great achievement for battery storage” in Ireland. Battery energy storage systems, often referred to as Bess, are regarded as a vital part of the Ireland's fledgling renewable energy sector and demand for them has never been higher.

How will Bess work in Ireland?

Ireland is targeting a renewable energy mix of 70% by 2030 and the BESS projects will help to integrate more renewables on the grid. Frequency response services well-suited to batteries have made Ireland a relatively advanced market for battery energy storage relative to its size.

How many battery storage projects are there in Ireland?

More currently, according to our colleagues at Solar Media Market Research, which produces the Republic of Ireland Battery Storage Project Database Report, there are now 545MW and 609MWh of utility-scale BESS projects already operational in the Republic of Ireland.
