

Dushanbe Communication 5G base station installation progress

Overview

Will China build a 5G base station next year?

Technicians from China Mobile check a 5G base station in Tongling, Anhui province. [Photo by Guo Shining/For China Daily] China aims to build over 4.5 million 5G base stations next year and give more policy as well as financial support to foster industries that can define the next decade, the country's top industry regulator said on Friday.

What is the highest altitude 5G base station in the world?

In April 2020, China Mobile established a 5G base station at an altitude of 6,500 meters on Mount Qomolangma, which is the highest-altitude 5G base station in the world. -- In June 2020, China completed the construction of its first underground 5G network in Shanxi Province, setting a record as the deepest underground 5G network in the world.

How many 5G factories will China build in 2021-2025?

China aims to build 10,000 5G factories during the 14th Five-Year Plan period (2021-2025). -- In March 2024, China Mobile launched the world's first commercial 5G-A network in Hangzhou, capital city of east China's Zhejiang Province, with plans to expand to over 300 cities across China before the year-end.

What will China do with the 5G push?

Alongside the 5G push, China will also start trials for 10-gigabit optical networks and optimize computing power centers amid an artificial intelligence (AI) boom brought on by ChatGPT.
