# Energy storage project implemented in Manchester UK

## Overview

---

How many energy storage projects are there in the UK?

As the battery technology prices have declined, energy storage projects in the United Kingdom have soared up in recent years. According to the Renewable UK, as of 2021, there were 1059 energy storage projects in the country, the increase in the number of energy storage projects will spur the growth of the segment during the forecast period.

Could a £750m battery energy storage scheme be the world's largest?

Planning permission has been granted for a £750m battery energy storage scheme (BESS) near Manchester. Carlton Power, the independent energy-infrastructure developer behind the venture, said the 1GW facility at the Trafford Low Carbon Energy Park would be the world's largest battery-storage facility.

Will a £750m battery energy storage scheme help Trafford & Greater Manchester?

The council's leader, Tom Ross, said that the battery storage and green-hydrogen schemes would put Trafford and Greater Manchester "at the forefront of the UK's energy transition". Planning permission has been granted for a £750m battery energy storage scheme (BESS) near Manchester.

How many MW of energy storage did the UK install in 2021?
