

Fast Charging of Spanish Folding Containers

Overview

Where is the fastest EV charging station in Spain?

Spanish charging firm Zunder has opened the largest ultra-fast charging station in the country. Located in Asturias, the new hub features 36 charging points and sits at a crucial intersection of key east-west and north-south routes. This development marks a significant boost for Spain's electric vehicle (EV) infrastructure.

What is Spain's new charging hub?

The new charging hub is a milestone for Spain's charging infrastructure, where fast chargers are currently in short supply, making up just 6% of all charging points. Spain has set a target of 200,000 charging points by 2030, but at present, the country has just 53 charging points per 100,000 people.

How many charging points are there in Spain?

- As of 2025, Spain has around 31,000 public charging points.
- Fast chargers (DC \geq 50kW) account for ~13% of total stock (~4,000 units).
- Leading operators include Iberdrola, Endesa X, Repsol, Zunder, Wenea, and Tesla.
- Estimated total investment in charging infrastructure by 2030: €3-5 billion, including public and private sectors.

What are the major electric charging companies in Spain?

- Leading operators include Iberdrola, Endesa X, Repsol, Zunder, Wenea, and Tesla.
- Estimated total investment in charging infrastructure by 2030: €3-5 billion, including public and private sectors.
- Concentration: 60% of public chargers are in the regions of Madrid, Catalonia, and Andalusia.
