We stock a large selection of UPS - Uninterruptible Power Supplies, including new and most popular products from the world's top manufacturers including: Apc, Schneider Electric, Phoenix Contact, Siemens & Ea Elektro-automatik  
Information unavailable.

What is the power supply industry in Spain?

With a focus on reliability and energy efficiency, their products range from 350 VA to 6,400 KVA, making them suitable for various sectors such as healthcare, IT, and large infrastructures. When exploring the Power Supply industry in Spain, several key considerations come into play.

How does an uninterruptible power supply work?

The uninterruptible power supplies have e.g. an adjustable maximum buffer time to protect the battery and the unit protects the battery from going into a deep discharge. Draining the battery all the way down can damage it in a very short period of time, especially if this occurs multiple times.

What is a continuous power supply (UPS)?

UPS is the short version of "uninterruptible power supply". In many applications a continuous power supply is important because power fluctuations and outages can cause damage to control equipment as well as unexpected down time. This situation can lead to a loss of productivity and revenue.
