

Follow-up of Serbia Communication Green Base Station

Overview

Why is Serbia embracing a green transition?

Even as the world grapples with eradicating poverty, limiting unprecedented hunger and coping with persistent climate shocks Serbia's journey to embrace a green transition and build resilience offers a glimmer of hope. The nation is balancing economic development with environmental sustainability.

What is Serbia's information security strategy?

The Strategy clearly defined the principles upon which the development of information security in the Republic of Serbia is based on, as well as priority areas that include the security of information and communication systems, security of citizens when using technology, fight against high-tech crime and information security of the country.⁵¹.

What is Serbia Goes Green?

Environmental protection and nature preservation were the focus of the Serbia Goes Green conference, which has been organized since 2016 by Color Media Communications. The European Union's commitment to supporting Serbia's green transition is reflected in a series of projects financed by the EU, as well as additional external support.

What is the green agenda in Serbia?

The Green Agenda in Serbia, a flagship initiative, led by the UN Development Programme (UNDP) with the UN Environment Programme's (UNEP) participation, is collaborating closely with the European Investment Bank (EIB) to scale up investments, identify bankable projects, and establish sustainable financing mechanisms.
