

# **Free consultation for energy companies using 50kW photovoltaic containers**

## Overview

---

What makes up a complete 50kVA solar power plant?

The following configurations make up a complete 50kva 50kW solar power plant: 1)87pcs 16mm2\*35CM,6pcs 16mm2\*2M battery cable,20M 16mm2 cable with battery terminal. Optional solar mounting support, PV combiner boxes, and cables. PVMARS provides a complete turnkey PV energy storage system solution.

How much does a 50kw solar power plant cost?

50kW solar power plant prices US\$34,195 – Gel battery design. (Valid for 30 days). Note: If you need a quote for lithium battery design, please contact [solar@pvmars.com](mailto:solar@pvmars.com) to obtain it. Below are the product parameters and pictures of the 50kw solar plant. Strong anti-cracking, heat spot protection.

What type of solar panels can a 50kw solar panel produce?

PVMARS provides monocrystalline and polycrystalline solar panels from 50w-600w. Among them, monocrystalline N-type TOPCon solar panels are currently a popular option because their high conversion efficiency and low degradation rate make them more efficient than P-type solar panels. How much electricity can a 50kW solar panel produce?

.

What kind of battery does a 50kw solar plant use?

The gel battery of this 50kw solar plant is designed with 90pcs 12v200ah batteries with a total capacity of 216kWh. In addition, PVMARS also offers lithium battery options. If your installation location is limited and you want more power, our small-volume 216kWh lithium battery is also an excellent choice.
