

Georgia grid-side energy storage cabinet quotation Is the portable power supply AC or DC

Overview

How many MW of energy storage does Georgia Power need?

Georgia Power is seeking 500 MW of energy storage with the ability to discharge for at least two hours, either standalone or with associated renewable resources, the utility said Tuesday. A draft request for proposals specifies the resources should be online in 2028 at the earliest and no later than the end of 2031.

Does Georgia Power have a battery energy storage system?

Georgia Power is already operating battery energy storage systems and has plans for more. The utility's 65-MW Mossy Branch BESS is located in Talbot County and began commercial operation in November 2024. Another 765 MW was authorized by the Georgia PSC and is projected to enter commercial operation in 2026, the utility said.

Who is Georgia Power?

Georgia Power is the largest electric subsidiary of Southern Company (NYSE: SO), America's premier energy company. Value, Reliability, Customer Service and Stewardship are the cornerstones of the company's promise to 2.8 million customers in all but four of Georgia's 159 counties.

Does Georgia Power accept email inquiries?

Georgia Power will not accept submissions or inquiries by phone, email or mail for the program. Georgia Power is the largest electric subsidiary of Southern Company (NYSE: SO), America's premier energy company.
