

# **High-Temperature Resistant Folding Containers for Mountainous Areas of New Delhi**

## Overview

---

Why should you choose a folding container?

Folding containers stand out as a practical accommodation option that can be quickly installed and lifted in earthquake zones, high refugee population, construction sites and many other areas. They easily provide shelter, healthcare and educational functions particularly during natural disasters, humane crisis periods.

What is a folding container?

Folding container varieties that can be manually installed are designed in detail as a system of interlocking components. The models which have folded size of 3.00 x 7.00 m length and 40 cm height or 2.40 x 6.00 m length and 40 cm height reach to 3.00 x 7.00 m length and 2.40 m height after installation.

Why should you choose a folding container for a shower module?

Folding containers also offer shower module alternative that can be added separately. Robust and durable products made of high quality materials provide extra comfort and safety with anti-flammable and water resistant HekimBoard brand fibercement façade coating on the ceiling.
