

# Household Energy Storage Export Tariff

## Overview

---

How much will US tariffs on Chinese energy storage products take effect?

48.4%! US Tariffs on Chinese Energy Storage Products Take Effect PVTIME – The US trade policy, which increases tariffs on battery and energy storage system products exported from China to the US, is officially take effect on 4 March 2025.

When will US tariffs on battery & energy storage system products take effect?

PVTIME – The US trade policy, which increases tariffs on battery and energy storage system products exported from China to the US, is officially take effect on 4 March 2025. Under the US policy, Chinese-made battery and energy storage system products will be subject to the following triple tariffs.

How will the tariff on Chinese batteries affect US exports?

By January 2026, the comprehensive tariff on Chinese-made batteries and energy storage systems in the US will reach an astonishing 48.4%. This figure will undoubtedly put enormous pressure and challenges on the export of related Chinese products.

How does tariff risk affect a battery energy storage system (BESS) project?

Mitigating tariff risk in battery energy storage system (BESS) projects is crucial for ensuring project financial viability, as tariff changes can significantly affect cost structures and overall project economics.
