How many volts is the dual voltage inverter in Cameroon

Overview

What is the voltage in Cameroon?

Just like in many former French colonies, the voltage in Cameroon is 220 volts and the frequency is 50 Hz. [Click here](#) for a global map showing the spread of the different plug types used around the world. [Click here](#) for a detailed list of the countries of the world with their respective plug and outlet types, voltage and frequency.

Do I need a voltage converter in Cameroon?

This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia. If the standard voltage in your country is in the range of 100V-127V (which is most common in the US, Canada and countries in South America) you might need a voltage converter in Cameroon. The standard frequency in Cameroon is 50Hz.

What type of plug does Cameroon use?

Cameroon uses power outlets and plugs of types C & E. Take a look at the pictures below to see what these plugs and power sockets look like: Do the outlets look different in your country?

You'll need a power plug adapter. Type C - The standard European plug. Commonly used in Europe, South-America and Asia, but also in quite a few other countries.

Which plugs fit in a Type E outlet in Cameroon?

Plug types C and F also fit in a type E outlet. If you're not sure whether the outlets and plugs used in your country are the same as in Cameroon, you can use the tool at the top of this page to check if you need a travel adapter. All power sockets in Cameroon provide a standard voltage of 220V with a standard frequency of 50Hz.

How many volts is the dual voltage inverter in Cameroon

Voltage in Cameroon

Nov 9, 2021 · Discover all the information you need for Voltage in Cameroon, from electricity power supply rates to the quality of the power. Find out more

Cameroon electrical outlets & plugs

Do I Need A Power Adapter For Cameroon? Electricity in Cameroon - Voltage and Frequency Frequently Asked Questions All power sockets in Cameroon provide a standard voltage of 220V with a standard frequency of 50Hz. You can use all your equipment in Cameroon if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia. If the standard voltage in your country is between 110V-120V, you will need a power adapter.
