

# **How much does a solar inverter cost in London**

## Overview

---

The cost of solar inverters varies from £500-£2,000 for the average property. The price depends on the type (string, micro or hybrid) you choose, the quality of the brand, as well as the size you need. How much does solar inverter replacement cost in the UK?

Natalie's focus lies in the areas of finance, sustainability, business communications, and more. She and her content team have been published in reputable sites like EcoWatch, Sunday Post, Earth911, and more. Solar PV inverter replacement costs in the UK start from £500.

How much does a solar panel inverter cost?

Quick Takeaways: Solar panel inverter costs can range from £500 to £2,500. String inverters are cheaper than microinverters, but the latter offers more advantages and a longer lifespan. Other factors that can impact the solar panel inverter cost include your system size, inverter efficiency, and whether it's grid-tied or off-grid.

How much does a string inverter cost?

Most string inverters come with a 5- to 10-year warranty that can be extended for a premium. Considering most solar panels come with a 25-year warranty, it goes without saying that you will at some point have to replace your inverters. The average solar PV inverter replacement cost of a string inverter typically ranges from £500 to £1500.

How much does a microinverter cost?

Microinverters can cost from £20 to £100 a unit. It can cost around £2,500 for the average solar panel system comprising 14 panels, including installation costs like wiring. You'll face greater upfront costs when creating a system that uses microinverters, and the bill can be quite high if you're planning on a large installation.

## How much does a solar inverter cost in London
