

How much is the price of Australian power storage vehicle

Overview

Australian pricing for the Tesla Powerwall 3 unit starts at \$11,900 which includes the 13.5 kWh battery and integrated inverter. How much does a Tesla Powerwall 3 cost in Australia?

Australian pricing for the Tesla Powerwall 3 unit starts at \$11,900 which includes the 13.5 kWh battery and integrated inverter. This price does not include the compulsory Tesla Backup Gateway unit which costs an additional \$1,700, nor the cost of installation. *These costs do not include delivery, installation, and other costs and fees.

What is the best home battery system in Australia?

The Tesla Powerwall 3 has quickly become one of the top home battery systems in Australia, building on the success of the Powerwall 2.

Is Tesla Powerwall 3 discontinued in Australia?

With the Tesla Powerwall 3 rollout, the Tesla Powerwall 2 has been discontinued in Australia. For the most part the Powerwall 3 offers the same or better technical specifications to the Powerwall 2 including a larger built in PV inverter. If you're comparing options, see our guide to the Best Solar Batteries in Australia.

How much does a Tesla Powerwall battery cost?

Based on installer pricing, the average installed cost of a Tesla Powerwall battery is \$1,129 per usable kWh, which places it at the premium end of the residential battery market. To see if home solar battery storage is worth it for you, see our detailed Solar Battery Sizing and Payback calculator to see the financials for your system.
