

Huawei ASEAN solar solar container energy storage system

Overview

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system (BESS) projects for the data center and other high-energy-consuming sectors, initially focusing on the ASEAN region. Does Huawei have a Bess solution for Terra solar?

Regarding large-scale BESS deployment, Huawei recently provided its Smart String ESS LUNA2000-2.0MWH-4HL batteries combined with its Luna 2000-200KTL-HO inverters for a 204MW system in Romania. While the company did not explicitly mention the BESS solution for the Terra Solar project, it did provide details on the features it will include.

How will Huawei & Keppel work together?

Through this partnership, we will harness Huawei's digital power technologies and Keppel's deep expertise in energy infrastructure to enhance the reliability and seamless integration of renewables with state-of-the-art energy storage.

Will Huawei provide a 4.5gwh Bess for Meralco Terra solar project?

Huawei has secured a supply agreement to provide a 4.5GWh BESS for the Meralco Terra Solar project in the Philippines.

What is Huawei's largest energy supply agreement?

The BESS supply agreement marks Huawei's largest to date. Construction started on the Meralco Terra Solar solar-plus-storage project in November 2024. The site is claimed to be the world's largest integrated power plant that combines the two technologies.
