

# Huawei Korea solar container battery

## Overview

---

How does the Huawei Luna battery pack work?

This technology allows optimization of the energy level of the battery pack. Huawei Luna consists of the Power Module, the electronic component and 5 kWh battery packs. The modular design allows to expand the storage capacity from 5 kWh up to 15 kWh with the possibility of stacking up to 3 battery packs (of 5 kWh each) for each system.

How many kWh can a Huawei smart backup box hold?

With options of 5 kWh, 10 kWh or 15 kWh and extensions up to 30 kWh, it adapts to your requirements. The system is safe, reliable and easy to install, perfect for single and three-phase inverters. The wall mount for the storage can be purchased separately. The Huawei Smart Backup Box secures your power supply in the event of a power failure.

What is Huawei 4.5MWh-2h1 storage container?

In the utility segment, the successful 2.0 MWh storage container has been systematically developed into the new Huawei 4.5MWh-2H1 storage container. The massive capacity enables flexible grid services, time-shifting of feed-in and hybrid power plant operation.

What is the storage system made by Huawei Luna 2000?

The storage system made by Huawei LUNA 2000 is available. The system can be modulated with lithium batteries from 5KWh to 15KWh. High-voltage lithium iron phosphate (LFP) batteries have a very stable and resistant chemical structure. This technology allows optimization of the energy level of the battery pack.
