Where can I find the best solar inverter in Sydney?

At Australian Solar Centre, we offer the best inverters in Sydney, providing high-performance and energy-efficient solutions for residential and commercial solar systems. A high-quality inverter is crucial for optimizing solar energy conversion, ensuring maximum efficiency, and delivering consistent power to your home or business.

Are hybrid inverter systems right for Australia?

As Australia faces increasing climate challenges, hybrid inverter systems provide flexibility to maximize the use of renewable energy and lessen reliance on carbon-intensive utilities.

Which solar inverter is best for Australia & New Zealand?

China's solar inverter manufacturer GoodWe has released its ET G2 Series in Australia and New Zealand, a 6-15 kW three-phase high-voltage hybrid inverter. The ET G2 is tailored to the Australian and New Zealand household market, offering features like smart load control, 100% unbalanced output, and streamlined installation.

What is a hybrid inverter?

A hybrid inverter (also known as a multi-mode inverter) is capable of managing the electricity output of solar panels and charging a battery system, while also operating with mains grid supply. Given this extended capability, they cost more than standard string solar inverters.
