

Industrial Solar Street Light 100W

Overview

What is an 100 watt solar street light?

An 100W solar street light is an energy-efficient and eco-friendly lighting solution designed for outdoor use. This 100 watt solar street light harnesses solar energy through high-efficiency photovoltaic panels, converting sunlight into electricity to power its high-lumen LED lights.

What is a solar powered street light?

LED Lighting Solutions' 15W Solar Powered LED Street Light is a part of the Pro street lighting series. This product comes with an integrated solar panel, bright LED lights, integrated solar rechargeable battery and motion activation sensor, making this an eco-friendly and efficient product.

What are solar-powered commercial LED street light systems?

The solar-powered commercial LED street light systems that Solar Illuminations supply are easy to install and suitable for use on most streets, parking lots, trails and general open spaces, etc.

How many watts is a solar street light?

Supplied with a 14W 1800 lumen light, along with a powerful 33 Watt solar panel and 256 Watt-hour battery pack. The light will automatically activate at sunset, and illuminate. This unique, contemporary, commercial grade, solar street light will emit powerful and reliable lighting for your project.
